Derwent Abstract: ([DE29811928U](#)) The air cleaning system has fans (2) located in the rear passenger saloon and are preferably controlled from the region of the driver's seat. The fans are located in spaces behind ventilation openings located in the rear saloon and in front of the outwards-going ventilation slots of the vehicle. The fans are installed in special cases (1) located in the rear passenger saloon and preferably in the roof area, and are connected to the outside air by an air duct (3). **Advantage** - Stale air can additionally be reliably removed from the rear passenger compartment.
